### RESPONSE TO NOTIFICATION OF DEFECTIVE RESPONSE

Sir:

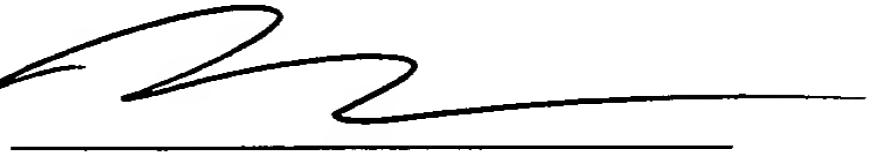

On April 25, 2002, the Patent Office mailed to Applicants a Notification of Defective Response. A copy of the Notice is attached hereto. The Notification stated that Applicants' previous response, which included a translation of the application, was defective because the translation of the claims was missing. Applicants apologize for the oversight and submit herewith a translation of the claims.

Please charge any fees that may be due and owing to Deposit Account No. 02-1818. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

**Abstract**

The invention relates to a method for the non-invasive measurement of the internal pressure of elastic vessels, according to which a restoring force is detected on the outer surface of the vessel and the internal pressure is determined from the measured force and the relaxation curve of the vessel. The aim of the invention is to be able to measure internal pressures in a simple yet highly accurate manner. To this end the relaxation curve is determined repeatedly after the start of the measurement.
